

State Conference 2018 Redcliffe

"U3A Redcliffe celebrating 30 years"

We thank you for making our Conference a success.

We have done a review of your feedback forms and the overwhelming view is that we succeeded in sparking your interest with our speakers, provided chances to interact with your fellow delegates, you learnt a few things along the way and we fed you well!

From our point of view you were great guests. Our volunteers appreciated the interaction you provided and the feedback from the Dolphin staff was that we were a wonderful group of people.

You can plan and organise an event like a conference, but to make it a success you need the enthusiastic involvement of the delegates. You came up trumps there. So although weary, we are on a high with the many kind words you left behind.

We would like to thank the U3A network Queensland committee for their support in refunding the registrations of Presidents who attended and by paying the airfare of Copyright Agency's Liesl Fitzpatrick to attend.

But our biggest thanks goes out to Greg Taylor from U3A Brisbane who looked after the Conference website. His advice was most valuable and the ability for us to use the backend of the site for administration save an awful lot of work.

Thanks again Greg.

We know that when you are at a Conference there is a lot of information to take in and we hope to help you in this regard by posting links to the PowerPoint presentations from some of our speakers. This will include Professor Sean Keogh whose presentation on medical retrieval was a great hit. Quite a few of you also asked who won the portrait competition. It was number 11 by Heather Grebert (a picture follows).

Below is the links to the presentations. All you have to do is click on the link.
